Subject: My opinion

I feel it is the People's and the government's obligation to ensure that companies such as Microsoft do not abuse our system of capitalism, which in most cases, infringes on our Democracy as a whole. It is time these huge conglomerates, such as Microsoft pay for their abuses in our country. Hopefully this will send a message to all other companies, which never seem to pay for their abuses, such as Enron, Ford, etc. Do your job. Don't let their power and wealth scare you.
